REGOLO

IP66 - ASYMMETRICAL - UGR<19

REGOLO rappresenta l'apice della tecnologia per l'illuminazione delle facciate. L'eleganza del vetro con la robustezza dell'alluminio, garantiscono resistenza e durata. Le ottiche asimmetriche offrono una distribuzione luminosa uniforme, ideale per valorizzare i dettagli architettonici. La versione RGB+W consente di creare scenografie luminose uniche. Con certificazioni IP66 e IK08, REGOLO assicura prestazioni eccellenti in ogni condizione climatica, rendendolo la scelta ideale per progetti di illuminazione architeturale.

REGOLO represents the pinnacle of facade lighting technology. The elegance of glass with the strength of aluminum, guarantee resistance and durability. The asymmetric optics offer uniform light distribution, ideal for enhancing architectural details. The RGB + W version allows you to create unique lighting scenes. With IP66 and IK08 certifications, REGOLO ensures excellent performance in all weather conditions, making it the ideal choice for architectural lighting projects.
